00-833 Warsaw

Recommendation letter

Oktawave Sp. z o.o. provided services to us in the period from October 3rd, 2011 to May 31st, 2020. The services comprised maintenance and ensuring the operation of IT infrastructure dispersed across two Oktawave data centers. The services are still provided in the continuous mode and include, among others,

- installation, configuration and maintenance of an IT environment operating in accordance with PCI DSS requirements;

- cyclical updates and audits of the environment under PCI DSS requirements;

- launching of services in two data centers located in Poland;

- establishment and maintenance of dedicated connections between a SkyCash branch and Oktawave;

- launch and maintenance of dedicated connections with partner businesses using various network technologies;

- ongoing monitoring of and care for the environment which processes, among others, card data;

- configuration and maintenance of services necessary for the work of applications (e.g. Apache, Nginx, Redis, MongoDB, MySQL, PostgreSQL, Kubernetes) in a dispersed HA environment;

- provision of virtual computing resources in the form of vCPU, RAM and disk space;

- continuous (24/7/365) monitoring of the infrastructure on the operating system level;

- architecture optimization and reconfiguration.
